G C
1) Harmony, means things agree,
G D
They fit all together so easily,
G C
Like the whales and the seas, and flowers and bees,
G D G
Nature itself is harmony.

2) Frogs in the pond, bears in the woods,
Mice in the meadow, they're feeling so good,
Birds in the sky, flying so free,
They're all a-singin' in harmony.

Chorus: C G
It's a song for the hills, it's a song for the trees
D G
It's a song for the skies, it's a song for the seas,
C G
It's a song for you, It's a song for me,
D C D G
It's a Whole Earth Harmony !

3) There's a bug on a leaf, a snake in the grass,
A fox in the field, she's runnin' so fast,
The hills and the forest live happily,
And the river is singing in harmony.

(Chorus)

4) This Earth that we live on, it suits me just fine,
If we keep it clean, it will last a long time,
We must walk gentle, no push or shove,
Let's sing to our planet, it needs all our love.

(Chorus)
